Arcam receives order from Israel

Arcam, listed on NASDAQ OMX, has received an Arcam A2X system order from Technion, Israel Institute of Technology, which is the oldest university in Israel. The system will be used for research and development.

“We are very happy about this new order. This will be our first delivery to Israel and is fully in line with our strategy to expand our customer base in new regions”, says Magnus René, CEO of Arcam.

The above information has been made public in accordance with the Securities Market Act and/or the Financial Instruments Trading Act. The information was published on June 19, 2014.
